WE ARE CHANGING OUR NAME, BUT OUR COMMITMENT TO PROVIDING EXCEPTIONAL CUSTOMER SERVICE AND SAFE DELIVERY OF NATURAL GAS FOR OUR CUSTOMERS WILL CONTINUE.

Visit our new website.

Dear Customer,

In March 2013, Liberty Utilities of Oakville, Ontario, Canada announced plans to purchase New England Gas Company. Since this announcement, both companies have worked together to meet all state and federal requirements to complete this transaction and ensure a smooth transition.

Upon the closing of this transaction, Liberty Utilities will become your new natural gas distribution company. Liberty Utilities is committed to providing safe, reliable and efficient service to our customers. Liberty Utilities is a large national utility that provides natural gas, electric, water and water/waste distribution services in nine states. We are excited about the opportunity to provide natural gas service in the Commonwealth of Massachusetts.

Many aspects of your natural gas service will not change. However, you will immediately notice a new logo on our gas bills, employee uniforms, and on our vehicles. You can also visit our new website, www.libertyutilities.com.

Liberty Utilities is very pleased to be doing business in Massachusetts and looks forward to serving you for decades to come. Welcome to Liberty Utilities!

Sincerely,

James M. Sweeney
General Manager & Senior Director
New England Gas Company

David Pasiaka
President
Liberty Utilities
